DETAILED ACTION

Response to Appeal Brief

1. Upon further consideration of the rejection and appellant's remarks in the appeal brief filed 1/24/05, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 1-45 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art made of record {Anthonyson, Hall} does not disclose "a method of tracking an item which include the steps of a) **providing the item with an identifier for specifying both an item-identification of the item and a tracking-station-identification of a tracking station related to the item**; b) obtaining from the identifier of the item, via a gate having a gate-identification, the item-identification of the item and the tracking-station-identification; and c) **communicating to the tracking station identified by the tracking-station-identification obtained from the identifier both the item-identification of the item and the gate-identification of the gate**" recited in independent claims 1 and 37. In essence, only a specific tracking station can track a specific item that is identified to be carrying the ID of said tracking station.

Claims 2-18 are dependent on claim 1. Independent claims 19 and 36 recite a system for practicing the method of claim 1. Claims 20-35 are dependent on claim 19.

Art Unit: 2635

Claim 38 recite an identifier for practicing the method of claim 1 and claim 42 recite a gate for practicing the method of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

USP 6,789,729 and USP 6,771,970 are cited in that these patents teach of tracking an item. However, none of these patents teach the method recited in claim 1.
